TITLE: READY TO SERVE/DIVERSION (AMBLUANCE DIVERSION)

<u>Purpose</u>

To provide a plan for the orderly arrangement of staffing and patient placement during any situation that has the potential to cause a break in the provision of essential patient care and services. Examples include (but not limited to): a winter storm warning, internal or external disasters, Red Light Bed Alert and ambulance diversion.

Policy Statements:

1. The provision of high quality patient care is the primary focus of the Community Health Network (CHNw).

2. All departments that support patient care will maintain a roster which includes staff phone numbers, distance from the hospital and travel time to reach the hospital.

Staffing level that support patient care will be addressed if there is a Red Light Bed Alert, winter storm warning, code internal or external, or ambulance diversion.

- 4. In rare instances the need to consider diversion may be due to untoward patient volumes, high acuities, and compromised physical and/or available resources either in acute care or in the emergency department. In these situations, when there may not be sufficient patient beds and/or patient care staff to safely care for any additional patients, the delivery of ambulance patients to a facility may be temporarily diverted. The rationale of such a diversion is to allow optimal patient care, while causing the least amount of hardship to other hospitals, including other facilities in the CHNw, or to EMS providers.
- 5. When diversion is being considered:
 - a. Only one (1) of the large metropolitan hospitals (excluding Eskenazi) will be on diversion at any one time; this includes Community Hospital East (CHE), St. Francis, St. Vincent, and Methodist.
 - b. Only one (1) of the CHNw hospitals East, North, and South –will be on diversion at any one time.
 - c. In a rare instance when patient safety dictates more than one facility to divert at once negotiation and collaboration occurs between sites and leaders, eg ED Directors, Nurse Managers, and Facility President, frequently to remedy the situation. The CHE House Supervisor, after collaboration with DART is empowered to make whatever decisions are necessary to avoid diversion, this may include mandating certain patient placements or staffing patterns.
- 6. A recommendation for diversion is made by the Emergency Department (ED) Director/designee after receiving data from the ED physician, the ED Patient Care Coordinator (PCC)/Charge Nurse, and the House Supervisor, The ED Director/designee then communicates and collaborates with the Vice President (VP) of Patient Care Services or designee for that facility to finalize the decision and determine the official diversion status, ie total or critical. The Regional Administrator on call will also be notified by the House Supervisor after hours. The cooperation of all site departments is necessary in order to implement this process. All patient care units, and all other applicable ancillary units, are expected to cooperate, negotiate in good faith, and work toward the common goal of managing patient flow and avoiding diversion.

CANCELS: 2/9/09; 5/23/12; 1/16/14

EFFECTIVE: 2/2/15

General Information:

- DIVERSION (ambulance diversion): The process of requesting EMS units to temporarily refrain from transporting incoming ambulance patients to a particular facility. Most often, diversion is due to unmanageable patient volumes, acuities, compromised physical resources or environment, Per agreement with metropolitan Indianapolis hospitals and EMS providers, there are seven recognized categories of diversion:
 - a. Critical Care Diversion Diversion of patients likely to require the most intense level of care and services, and likely to be admitted to critical care beds and/or monitored beds.
 - Total Diversion Diversion of all incoming ambulance patients, (NOTE: In the case of the following patients, the situation may be evaluated on a case-by-case basis: laboring mothers, patients in cardiac or respiratory arrest, patients in extremis, or ambulances which are in very close proximity to the hospital.)
 - c. Psych Diversion At Community Hospital North (CHN), times exist when the Behavioral Health Pavilion must divert patients. In these instances, the Medical Director and/or Executive Director for Behavioral Health are in charge of making the decision and notifying the House Supervisor at CHE to initiate the diversion.
 - d. Cath Lab Diversion Due to equipment failure in this department, diversion of patients with complaints likely to require this department's services is called and EMS units are alerted to divert those patients in order that they receive optimum care.
 - e. Specific Resource Diversion This is not an officially recognized "diversion" status in the community at large. For example, CT scanner(s) are non-functional. Diversion of patients with complaints likely to require that resource is called and EMS units are alerted to divert those patients in order that they receive optimum care. This type of diversion lasts only until the resource/issue can be resolved.
 - Trauma Diversion- When one or more essential hospital resource is functioning at maximum capacity or otherwise unavailable, it may be in the best interest of a traumatically injured patient to be directed to an alternative facility for care. Such circumstances may occur but are not limited to the following: ED's capacity is saturated; critical patient care resources exceeds availability, ED resources are fully committed due to an internal/external disaster. Trauma Surgeons are not or will not be available in a timely manner, Operating Room is functioning at maximum capacity and will not have availability in a timely manner, no CT Scan availability. House Supervisor, ED PCC/Charge Nurse, ED Physician, Trauma Surgeon on call and/or Trauma Program Manager will collaborate to decide if Trauma Diversion should be initiated.
 - g. Immediate Detention Diversion: Security Supervisor deems that an unsafe environment exists due to the ratio of ID (Immediate Detention) patients to security staff available in the ED. Security Supervisor discusses with House Supervisor and ED PCC/Charge Nurse the need for ID Diversion until ID patient and security staff available reach a safe level.
- 2. BEDS/PATIENT FLOW Bed Alerts are a declared situation and electronic communication is sent to alert the Network.
 - a. YELLOW LIGHT approximately 91% occupancy of core beds.
 - b. BLUE LIGHT indicates the number of ready/available beds exceeds the number of available
 - RED LIGHT nearing 100% occupancy; indicates the number of inpatients or admissions has exceeded the number of beds available.
 - Updated Bed Aggregation numbers for each facility are maintained at CHE in the House Supervisor's office.
 - The CHE House Supervisor is responsible for initiating the Network Alert daily.
- 3. DART (Diversion Avoidance Response Team)

CORPORATE CLINICAL POLICY AND PROCEDURE Approved For: \fbox{X} CHE \fbox{X} CHN \fbox{X} CHS \fbox{X} CHVH

CORP#: CLN-2087

Page 3 of 6

EFFECTIVE: 2/2/15

- a. The DART group convenes in person and/or via telephone when census/acuity is high, and diversion is a threat. The group's goal is avoiding diversion by whatever means possible, and they are empowered to do so by Senior Leadership. A meeting of this group is requested when it is felt that diversion issues may arise soon if plans are not implemented to alleviate patient overload. NOTE: If a diversion decision is needed emergently, the ED Director in consultation with the facility VP of Patient Care Services may make that decision emergently and DART can be convened forthwith to work on solutions to end the diversion status as quickly as possible.
- b. The DART is comprised of:
 - House Supervisor
 - Emergency Department Clinical Director or designee
 - Nursing Site Leaders
 - Ancillary Site Leaders, eg., Case Management, Environmental Services
 - Facility President
 - · Site-specific personnel as designated by Facility President

4. EMERGENCY STAFFING PLAN - consists of:

- a. Holding essential staff over for duty on subsequent shifts
- b. And/or recruiting staff from alternative sources within the hospital network
- c. And/or requesting transportation service through Security Dispatch for staff essential to patient care and who are unable to provide their own transportation
- d. And/or providing lodging quarters, supplies, food, and compensation for staff, volunteers, and contracted service employees
- e. The hospital may provide transportation for staff needed for essential patient care and services after all efforts for self-transportation have been exhausted. When making arrangements to pick up staff, the network commits to making arrangements to take staff back home via 4-wheel drive vehicles or prepaid taxi. However, the network cannot commit to the exact time staff will be taken home. The network cannot guarantee that there will be a sufficient number of 4-wheel drive vehicles (or taxi service) available to meet the demand for pick up and return.
- 5. CODE INTERNAL can include, but is not limited to loss of communications, utility failure (ie electric, water, medical gas, HVAC), bioterrorist threat, chemical spill or communicable disease outbreak. A Code Internal is a situation that has potential to disrupt the normal course of business, cause damage or create casualties.
- 6. CODE EXTERNAL can include but is not limited to bus/plane or multiple auto accident (resulting in patient influx), release of a toxic substance, bioterrorist attack terrorist attack or incident causing multiple injuries/casualties. A Code External at one site does not mean there needs to be a Code External initiated at all sites.
- 7. Electronic communication devices are used to notify the network of disasters, bed alerts, etc.
- 8. PAY PRACTICES: refer to Community Health Network Human Resource Policy and Procedure Manual.

Procedure:

DIVERSION

- 1. The ED identifies that it is unable to accommodate further patient influx.
- 2. The charge nurse in conjunction with the ED physician contacts the ED Director/designee, who will then coordinate efforts to alleviate the situation. The Director/designee will consult with the VP of Patient Care Services and the Region Administrator on call as needed to get the situation relieved. If the situation is not able to be relieved, the appropriate diversion may be called at this point.
- 3. The department notifies the CHE House Supervisor.

Page 4 of 6

CANCELS: 2/9/09; 5/23/12; 1/16/14

EFFECTIVE: 2/2/15

CORP#: CLN-2087

4. The CHE House Supervisor pages all CHNw leadership, utilizing the network emergency alpha pagers: "Dart Meeting" with time and meeting place.

The DART is immediately activated, as follows (unless previously activated):

- a. There is an immediate halt on all placements of admissions, while a rapid assessment of the situation is conducted; the halt applies to, but is not limited to the following areas/departments: ED, Operating Room (OR), Post Anesthesia Care Unit (PACU), Cardiac Cath Lab, and all inpatient and short stay/daybed units.
- b. Guidelines for this rapid but thorough assessment may include, but are not limited to:
 - 1.) Analysis of numbers of patients throughout the facility
 - b.) in ED total and those to be admitted
 - c.) in the Cath Lab currently and slated
 - d.) the OR/PACU -- currently and slated
 - Assessment of number of available house beds, including pending discharges and transfers
 - 3.) Assessment of bed utilization
 - a.) Are all available beds being utilized?
 - b.) Are there any beds on the Pediatric or Family Rooms units? (Note: Pediatrics can take patients up to age 25 without special permission; Family Rooms can take non-infectious female patients)
 - c.) Does a unit (or units) need to "flex up"?
 - d.) Can patients be held in closed areas, eg, Endoscopy or Ambulatory Care?
 - e.) What closed beds can be re-opened immediately? In one hour? In four hours?
 - g.) Who else can be utilized to provide patient care non-clinical and/or administrative nurses to provide direct patient care?
 - Movement of patients
 - a.) Has a particular patient's condition been upgraded, qualifying the patient for a lower level of care?
 - b.) Can patients be transferred to another CHNw facility? (i.e. cardiac patients going to CHVH the next morning for cardiac catheterization.)
- If diversion is unavoidable, the CHE House Supervisor makes the following notifications, in this 6. order, 24/7:
 - a. Notify EMS:

CHE

Hancock County - Buck and Sugar Creek

Mesh Indy TRAC System

317-477-1144

CHN/CHVH/Behavioral Care

Hamilton County

Mesh Indy TRAC System

317-773-1282

CHS

Mesh Indy TRAC System

317-831-6366 Brown Township

- b. Page all CHNw leadership, between 0600-2200, utilizing the network emergency alpha pagers: "Diversion" with what hospital and pertinent information related to the diversion.
- CHE House Supervisor will log diversion information in the Network Diversion Log. 7.
- The entire situation will be re-evaluated, not less than every two (2) hours. 8,
- The diversion will be deactivated as soon as possible; the CHE House Supervisor will: 9.
 - a. Notify EMS, following the above steps, see 6.a.
 - b. Page all CHNw leadership, between 0600-2200, utilizing the network emergency alpha pagers stating the diversion is over.
 - The CHE House Supervisor will log the information in the Network Diversion Log.

CANCELS: 2/9/09; 5/23/12; 1/16/14

CORP#: CLN-2087

Page 5 of 6

EFFECTIVE: 2/2/15

DECLARING A YELLOW, BLUE OR RED LIGHT BED ALERT

- 1. Each unit/department assesses bed availability for potential problems. Notify the House Supervisor at CHE via alpha-numeric pager 904-4110 of potential problems.
- 2. The CHE House Supervisor assesses daily at 0500, 1300, 2000, and PRN the number of current inpatients at all 4 Indianapolis Community Health Network hospitals
- 3. The CHE House Supervisor evaluates the information from all sites to determine if a Bed Alert needs to be called. The CHE House Supervisor will assess which are the most appropriate units to place centralized staff when supply and demand do not match, eg skill mix, on-call procedures.
- 4. When a RED LIGHT is called, departments may be notified of the potential need to hold patients.

EMERGENCY STAFFING PLAN INITIATION:

- 1. Department Directors or designee determine staffing requirements for providing essential patient care and services (ie Nursing Service, Dietary, Laboratory, X-ray, and Maintenance) and initiate plans, which may include:
 - a. Retain current staff.
 - b. Recruit staff from alternative sources within the hospital network.
 - c. Request transportation service
 - d. For coordination, all nursing service units/departments communicate their individual nurse staffing status with Centralized Staffing (355-2137).

TRANSPORTATION SERVICES

- 1. Leadership arranges employee transportation with Security (355-5296), making the request as soon as possible but not more than three (3) hours prior to employee's scheduled start time.
- 2. Security determines transportation assignments, considering:
 - a. Weather and road conditions.
 - b. Employees located in close proximity to others may in some cases determine pick-up priorities.
- 3. Safety & Security coordinates requests for return transportation with pick up requests. Pick up requests have priority over return transportation. Return transportation is scheduled on a first come, first serve basis.
- 4. Transportation vehicle pool:
 - a. All hospitals owned vehicles are available to the Transportation Pool
 - b. Security Dispatch contacts the Director of Facilities Engineering or designee in regards to providing transportation assistance
 - c. All drivers are issued a two way radio or cellular phone.
 - d. Security dispatch records driver mileage.
 - e. Expenses (mileage) is recorded when non-hospital owned vehicles are used for the reimbursement of expenses under standard travel practices.
 - f. Fuel reimbursement and hourly wages to hospital and non-hospital employees will be paid fuel reimbursement and hourly wages after receipts are turned into the Secretary of Safety and Security.

LODGING QUARTERS AND PROVISIONS:

- 1. If necessary, due to the projected length of severe, inclement weather or the projected length of the Internal Disaster, lodging quarters will be provided for employees who volunteer or are requested to stay in the hospital to staff projected vacancies.
- 2. Lodging will be coordinate by Environmental Services and House Supervisor.
- 3. Toiletries are coordinated through Materials Management.

Diversion Hours: Community East Hospital was on diversion 272 hours in 2014 which equaled 3.1%. Community East Hospital has been on diversion 317 hours from January to September 1st 2015 which equals 3.6%. Diversion hours from August 2014 through July 2015 (the time we began "in the ACS process" through next consecutive 12 months) were 490 which equaled 5.6%.

In reviewing data from the end of 2014 through early 2015, higher than acceptable diversion hours were identified as a problem. In order to correct that deficiency, senior leadership met in a subcommittee of operations, and determined a PI initiative to correct this deficiency. Since then, our network added to the diversion policy a process addressing trauma diversion. That policy is attached as **Appendix A**, and education has been completed with our house supervisor managing diversion. As of August 2015, we have no diversion hours for trauma, and I will continue to monitor this process to ensure compliance.

Peer Review/Operations Attendance: Community Hospital East Peer Review and Operations Committee began quarterly meetings August 2014. Peer Review and Operations Meetings were increased to Bi-monthly in January 2015, as it was determined the work necessary to maintain the trauma program would need to meet more frequently than quarterly. Attached you will find the peer review and operations attendance for those meetings in the CHE

Requirements_for_1_year_check_in.xls "Peer Attendance" and "Operations Attendance" spreadsheets. Three general surgeons actively taking trauma call do not meet the 50% attendance requirement for peer review. Those surgeons have been counseled, and leadership will be determining a PI plan to address compliance.

Community Hospital East separates physician operations from nursing/ancillary operations. You will notice that Peer Review includes limited hospital personnel (limited administrators, ED directors and EMS director). During Peer Review, operations issues are discussed and determined what subcommittees need developed to address. Nursing/Ancillary operations (see attached Operations Attendance tab) meet at least quarterly and as issues arise, subcommittees meet to address those issues and develop a PI plan. While not all of the physician liaisons and surgeons attend this meeting, the Trauma Medical Directors from Community Hospitals East and North attend and any issues from nursing/ancillary operations needing to be discussed at the Peer Review and physician operations are addressed at the next scheduled Peer Review.

Surgeon Response Times: Community Hospital East trauma surgeons began responding to Code Trauma activations August 2014. Since then, we have activated our Code Trauma team 52 times. Of those 52 activations, 5 patients were transferred to a Level I trauma center in under 30 minutes, and have not been added to our physician response times log as the surgeon was called off when the patient was transported out. Of the remaining 47 activations, the trauma surgeon on call was at bedside within 30 minutes 28 times (60%). As Community Hospital East is an urban hospital with Level I trauma centers in close proximity, most activations arrive via patient's own vehicle (POV). (Five patients of the fifty-two arrived via EMS without notification from the field and activated as Code Traumas after arrival, however, were determined to be over-triages, and education was completed with ER staff and physicians regarding appropriate Code Trauma activation criteria).

Community Hospital East remains under the 80% required surgeon response. As most of our high level activations arrive via POV, we implemented some of the following initiatives in order to best meet the surgeon response time requirement:

Community East Deficiencies with PI plans

- 1. Policy for Code Trauma Activations from triage by the nurse at the main ER triage desk.
- 2. Review of every Code Trauma Activation and barriers to meeting surgeon response times.
- 3. Researching either developing in-house trauma surgeon call amongst current surgeon group, or hiring outside trauma surgeons to take trauma call.

Operations Attendance

1. Please place total number of Operational Process Performance Committee meetings held in B23 field.	2. Place all meeting dates in columns C2 through N2, using only the number of columns appropriate for your facility and deleting	excess columns . (i.e. if you only had quarterly meetings, then enter dates in C2 through F2)	3. Then list all committee members in column A with their attendance recorded in appropriate columns.	4. The overall attendance will automatically calculate in column O and overall percentage in column P.
